STRENGTHS

Automation Testing

Designed and implemented automation testing suite resulting in 40% reduction in testing time.

Attention to Detail

Identified critical defects with precision resulting in an improvement in overall software quality

Collaboration

Facilitated cross-functional communication to resolve issues and improve product quality

SKILLS & TOOLS

Manual Testing · Automation · Selenium · Core Java · TestNG · Cucumber · BDD · Jenkins · Maven · Cross Browser · API · Postman · Database · JIRA · Agile · SQL · SDLC · STLC · Regression · Functional · TFS · Cross browser · UI/UX · CI/CD · Integration · Mobile Testing · POM · Confluence · UAT · GitHub · Regression · Integration · Functional

KEY ACHIEVEMENTS

EDUCATION

Bachelor of Science in Computer Science - Maharishi Dayanand University - Rohtak, INDIA

ISTQB Foundation Level

Scored **80% (34/40)**, demonstrating strong understanding of core testing principles and methodologies

DOMAIN

E-Commerce, Logistics, Home-Service, Educational, Healthcare

SUMMARY

ISTQB Certified QA Automation Architect with **7 years of experience** in designing **scalable test frameworks** using **Selenium, Java, TestNG, Cucumber BDD, and POM** — achieved **65% faster execution**, **40% lower maintenance**, **70%+ automation coverage**, and **30% quicker releases** through **Jenkins & Maven CI/CD**, ensuring **98-100% data integrity** and mentoring QA teams in **DevOps practices**.

EXPERIENCE

QE - Analyst

02/2024 - 02/2025

ValueLabs

Hyderabad, India

Smart Shipping & Cargo Insurance (**Logistics Domain**)

- Developed **Selenium WebDriver** automation suites in **Java/TestNG/POM**, achieving **85% regression coverage** of critical shipment-tracking flows.
- Authored **Cucumber/BDD** feature files and step definitions, automating **95%** of real-time sensor data and event-log scenarios.
- Integrated automated regression into **Jenkins + Maven** pipelines for nightly CI runs, reducing manual effort by **50%** and delivering **100%** on-time HTML & TestNG reports.
- Executed **API tests** in Postman with 100+ automated test cases and validated backend data with complex **SQL** queries, maintaining **98%+** data accuracy.

Senior Test Analyst

05/2023 - 07/2023

Aristocrat Technologies

Gurgaon, India

Project: Player Profile Management System, **Domain:** Gaming & Casino Systems

- Automated player-profile UI tests using **Selenium/Java/TestNG**, cutting manual regression cycles by **40%** and boosting test repeatability to **90%**.
- Designed and implemented **Cucumber** scenarios with **@DataProvider**, covering **75%** of multi-data validation cases in a single test suite.
- Configured **Jenkins** pipelines and **Maven** builds to trigger end-to-end automation on every Git commit, reducing feedback loop to **10 minutes**.
- Performed **API automation** in Postman and validated DB transactions via **SQL** scripts, achieving **100%** transaction integrity and zero post-release defects.

Test Analyst

02/2020 - 02/2023

Chetu India Pvt Ltd

Noida, India

Tested web and mobile applications

- Built a **hybrid POM** framework in **Selenium/Java/TestNG**, ramping up automation coverage from **20% to 70%** on the IAPDA certification platform.
- Implemented **data-driven** and **keyword-driven** approaches with TestNG **@DataProvider** and Excel integration, enabling **200+** distinct test combinations.
- Integrated test suites into **Jenkins + Maven** CI/CD, slashing build-to-report time by **60%** and generating **rich ExtentReports** for all runs.

Quality Assurance Analyst

08/2017 - 01/2020

i3infosoft

Noida, India

Ensured software quality standards were met

- Executed functional, regression, smoke, sanity, and GUI testing for an **e-commerce** pharmacy platform, ensuring seamless user experience across product categories .
- Developed and reviewed comprehensive test plans, scenarios, and test cases aligned with customer requirements, increasing defect detection by 25%.
- Developed and executed **UAT** test packs resulting in 95% client satisfaction.
